To,
Whoever it may concern
Futures First

Dear Sir:

I am interested in the 6 Months Internship Financial Market Research's position at Futures First as advertised on the organization's website. I am currently 4th year student at BIT Mesra. I believe that the skills I have learned makes me suitable candidate for the position.

I am a highly motivated individual with a venture to learn new Everytime possible. I am self motivated person who loves number crunching and taking risk. I am comfortable working under tight deadline. I have understanding of Machine learnign which is basically being used by many companies in order to make their work more efficient and profitable and I unerstand that when it comes to numbers some learning algorithm will be very efficient to get the dersired task done.

I like to learn new skills and try to use those knowledge for practical implementation. I am confident that I can complete any given project under tight deadlines. I look forward to communication with you and discussing my qualifications in more details.

Sincerely,
Raju Kumar Pandey
